

A Growing Logistics and Manufacturing Platform

Port San Antonio's 350-acre East Kelly Railport is where many key area industries are building their futures. Businesses in the energy, manufacturing, transloading, warehousing, recycling, ground transportation and other sectors are already thriving thanks to the Railport.

Combined with the Port's other logistics assets, Railport customers have a strategic partner and a strong foundation for success.

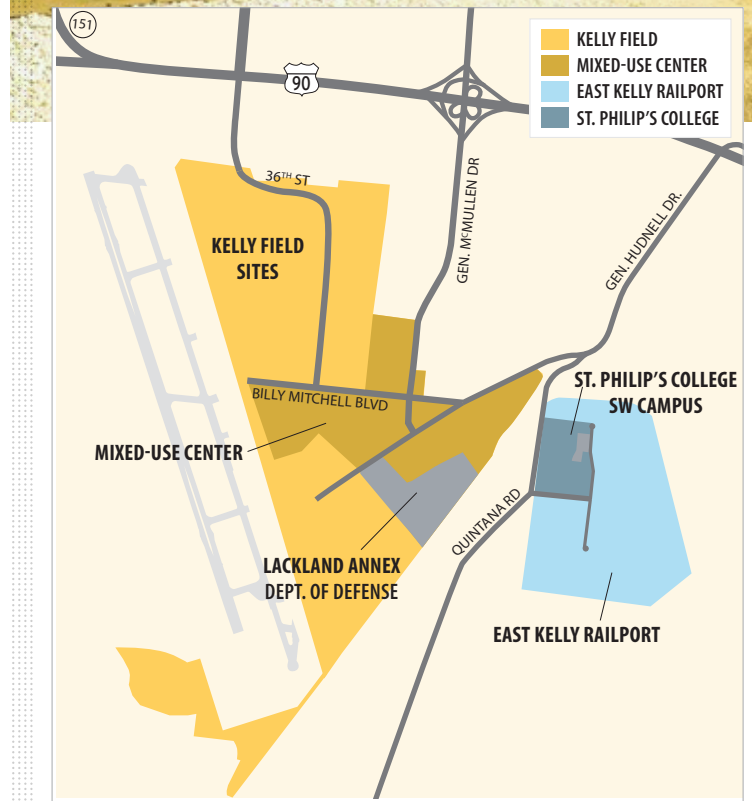

Key site features:

- Direct access to UP and BNSF Railway trains
- Eight miles of track operated by the San Antonio Central Railroad (SACRR)
- Capacity to serve 20,000 railcars per year
- Unit train capacity
- 150 rail-served acres for build-to suit logistics and manufacturing facilities
- Entire site is contained in Foreign-Trade Zone

About Port San Antonio

Port San Antonio is redeveloping the former Kelly Air Force Base creating the conditions that maintain and grow quality jobs.

The 1,900-acre site features an industrial airport, railport and mixed-use development. Today the Port is home to over 80 private and public sector organizations which employ approximately 12,000 workers in aerospace, military, logistics, manufacturing and other key industries in the region.

SERVED BY
