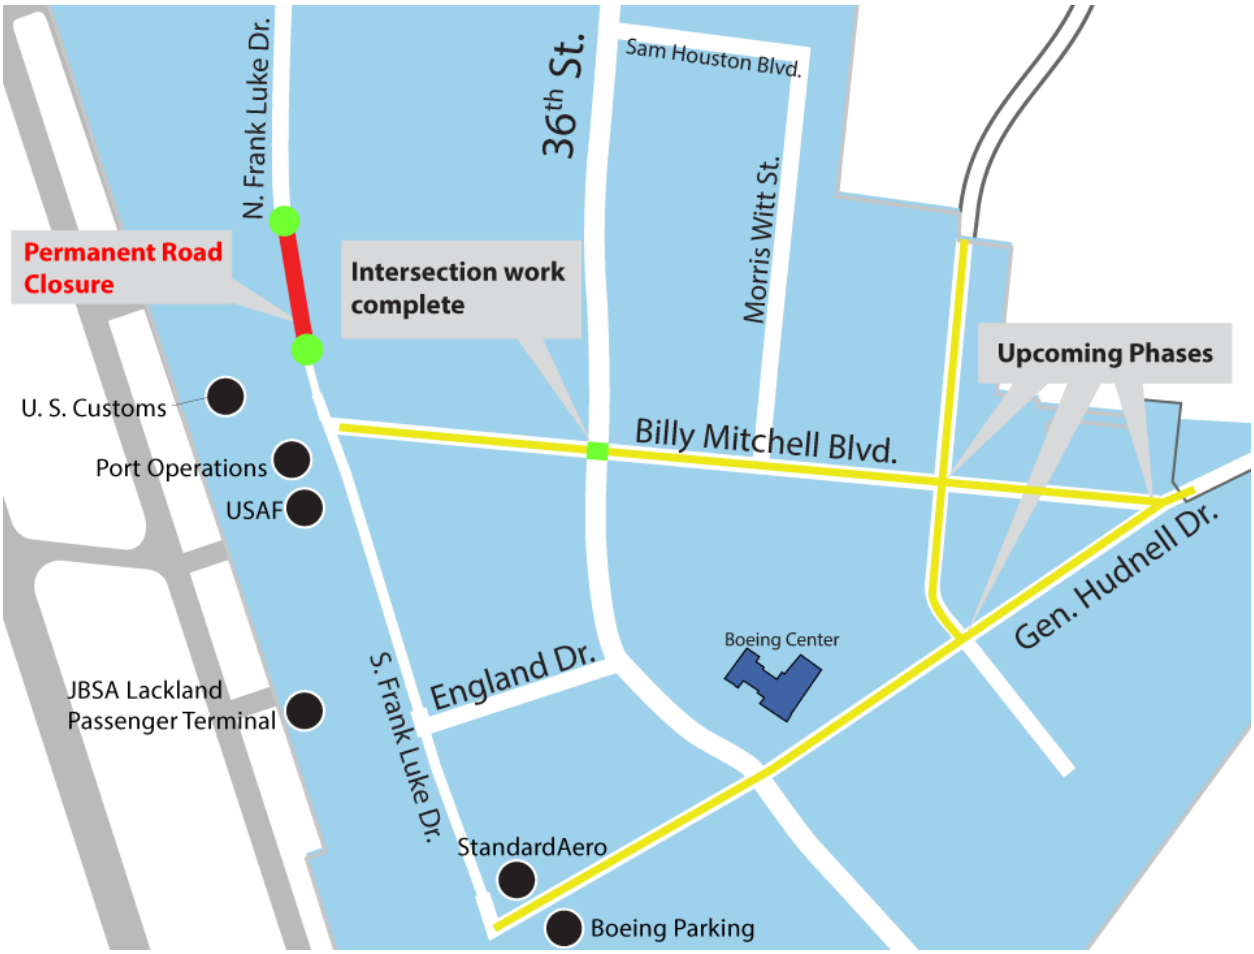
# Major Road Construction Update (November 2025)



The intersection at 36th Street and Billy Mitchell Boulevard is now open to traffic in all directions. We appreciate your patience and collaboration as the City's Public Works Department made significant upgrades in recent months, including installation of new traffic lights.

This marks completion of the latest phase of the City of San Antonio's 2022–2027 Bond Project: Port San Antonio Area Streets, to improve key corridors that serve the Port campus and surrounding community.

Beginning in the spring of 2026, the full length of Billy Mitchell Boulevard, General Hudnell Drive, and General McMullen Drive inside the Port campus will begin to undergo similar upgrades to enhance traffic flow and walkability: new sidewalks and curbs, improved drainage, pedestrian lighting, bicycle and pedestrian facilities, and utility upgrades.

Please watch this space for details ahead of those phases, including temporary lane closures.
