

# NEW WI-FI HOTSPOT

## FREE TO THE COMMUNITY

Port San Antonio, the San Antonio Museum of Science and Technology (SAMSAT) and area schools are working together to provide additional free internet access to the surrounding community during the COVID-19 crisis.

A new Wi-Fi system has been installed at SAMSAT that allows users to remain in their vehicles and observe social distancing while accessing the Internet on laptops and tablets.

The free Wi-Fi is open to all people in the community, including students from other districts, and is in service from 7 a.m. to 8 p.m. seven days a week.

### PORT SAN ANTONIO WI-FI HOTSPOT

102 Mabry Dr.

San Antonio, TX 78226

Seven days per week, 7 a.m. - 8 p.m.

\*Users must consent to Port San Antonio's terms of use upon receiving Wi-Fi signal
